A. BASIC DEFINITIONS - ZAGADNIENIA PODSTAWOWE

A.0 INTRODUCTION - WSTĘP

Imagine for a moment what road traffic would be like if there were no traffic regulations and every driver would drive however they wanted. You would probably feel a slight sense of unease. However, you do not need to worry – luckily, there is no latitude allowed here. There are regulations that ensure that road traffic is controlled by law; and all the rules involving road behaviour are constructed in such a way that once they are known and respected, they ensure safe driving.

Zastanów się przez chwilę, jak wyglądałby ruch na drogach, jeśli nie byłoby żadnych przepisów regulujących zasady tego ruchu, a każdy kierowca jeździłby po swojemu? Prawdopodobnie ogarnąłby cię mały niepokój, jednak nie obawiaj się – na szczęście nie ma tu dowolności. Istnieją przepisy, które powodują, że ruch na drogach jest prawnie uregulowany, a wszelkie zasady zachowania się na drodze są tak skonstruowane, że ich znajomość i respektowanie sprawiają, że jazda będzie bezpieczna.

b) Baza pytań
